REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance of claims 31, 33-39 and 41-50:

Claim 31, 39 and 50, a cathode tip has an emitting layer, which comprises of a metal silicide over the cathode tip and has a thickness between 50 and 3000 angstroms.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Claims 33-38 are dependent on claim 31.

Claims 41-49 are dependent on claim 39.

Xu et al. [US 6,356,014] disclose a cathode tip with a carbon containing material layer over the cathode tip and having a thickness between 50-3000 angstroms. Lee [US 5,401,676] discloses a cathode tip with a metal silicide over the cathode tip. There is no motivation or suggestion in Xu et al. or in Lee to substitute the carbon containing material layer with the metal silicide as in the applicant's explanation filed on 09/29/03.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings filed on 02/09/01 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
